

Fairleigh Dickinson University

3-Credit Graduate course in the Master of Administrative Science program (MAS) toward a 12- credit graduate/post-graduate Certificate.

Certificate in School Security & Safety Administration

MADS 6665.81- Crisis Management for the School Administrator

Instructor: Captain Patrick Reilly, New Jersey State Police

Bordentown Regional High School

Saturdays, October 22- November 19, 8:30 AM- 4:30 PM

Contemporary events have revealed that all school districts need to prepare for the unthinkable. No school leader wants to be in the middle of a crisis. The potential for the occurrence of natural disasters, terrorist activity, violent students and shootings on school property significantly increases the burden of responsibility to keep students and faculty safe. This course encompasses crisis preparedness resources that will enable administrators to manage school emergencies. It will focus on three key elements of crisis management: planning, response and recovery.

Ask about our “Express Admission” process

- Bachelor’s Degree Required
- No Application Fee
